### FIELDS' POSITION KNOWN

Republican Candidate Stands Squarely on Platform Plank as It Was Adopted

That an eleventh-hour attempt to defeat John Fields for governor by inflaming race prejudice will be made by Walton's supporters over

made by Walton's supporters over the state appears certain. Authentic word was received in Tulsa Wednesday that thousands of copies of the editorial page of recent issue of the Black Dispatch, an Oklahoma City negro newspaper, have been printed and surreptitiously sent to all Walton headquarters with instructions to scatter them broadcast on Monday and election day.

The editorial with which the reconstructionists bope to poison the minds of voters against Fields is considered by many persons of both political parties to have been written or at least fostered by Walton's henchmen, because it goes to ludicrous and even radical extremes in predicting benefits that will accrue to negroes if Fields is elected, benefits that could not be bestowed by any official.

The race plank in the republican
state platform reads as follows:

This little advertisement inserted a year ago in a newspaper column brought Dr. J. Franklin Moors, dental specifialist, into the diverce court today where he made the astounding discovery that throughout the year a decidedly filirty correspondence he had carried on with "Grace Vance" had been conducted with his own wife.

Mrs. Moore produced letters which were signed by "W. S. Harris." This, she announced, was the name used by her husband in the correspondence.

In one of his letters "Harris" urged "Miss Vance" to destroy the correspor fance, writing: "Lives of gr at men oft remind use.

TRAGEDY STORY

By CLARK C. HUDBON.

World's Captes Correspondent.

OKLAHOMA CITY, Nov. I.—It has been discovered by the constitutional democrats, according to warning sent out from their headquarters today, that a carefulity planned effort is being made to steal the election for Walton. The club details some of the methods that are to be used which include throwing out mixed ballots as mutilated and fafalfying the taily by counters. This it is shown, is to be attempted in many heavy precincts in the state, mostly in the cities where there are localities in which crooked work is procurable.

Consequent upon discoveries which have been made the constitutional democrats have issued an appeal to friends of good government to aid in seeing that the law is followed at the election. This will include an effort to see that honest election officials and counters are chosen in every precinct in the state. Since most election stealing is done from the inside in precincts controlled by venal politicians, it is considered more important to protect the count than to provide against fraudulent voting although the latter is not to be overlooked. Hundreds of illegal certificates are said to have been inside here with which attempts will be made to vote by floaters. With this phase of the situation federal officials will be asked to deal. Evidence is also to be secured in all cases where the vote is miscounted on the tailly sheets, which is the most common form of election theft and the most difficult to discover, it is only possible where the counters gra MGINES HIS FACTS
